

Phase I: Planning

Objective

The objective of this website is to create a digital space that acts as a compilation of professional and personal aspects of my life offered in an easily digested format. It's not meant to be a personal blog, nor a CV; it'll function at a higher level than both of those while giving viewers a good idea of who I am, what I'm interested in, and some of what occupies my mind day to day.

Contents

Contents will include:

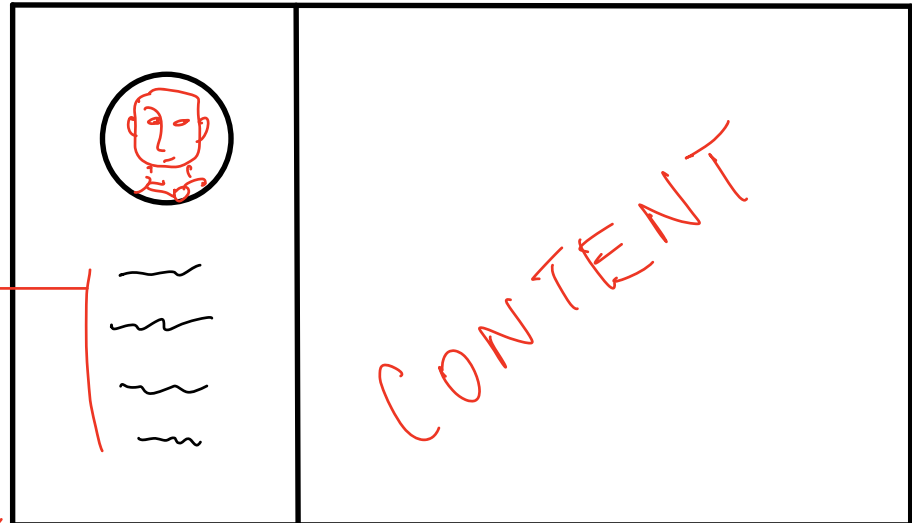

- About - a high level biography that talks about my professional, academic, and personal background. This will give the viewer some context for the rest of the site and offer an initial impression of me.
- Interests - a collection of topics that keep my mind swirling. This is meant to be a diverse, eclectic collection that balances out the straightforward sections on experience and education. It aims to bring me to life.
- Experience & Education - sections dedicated to a brief rundown of my career and studies up to this point.
- Contact Me - a way for viewers to get in touch with me should they want to talk more about anything on the site.

Phase II: Design
